UNION's new range of matte black door furniture

The aesthetics of a building together with its interior design is an important part of a building process. Many architects and interior designers want building products, including door hardware to complement the final visual design of the building while effectively fulfilling its functional purpose.

Fully cognisant of the need for aesthetically appealing and functional products, UNION has introduced the Black Series range of matte black products to put the beautiful finishing touches on commercial and residential buildings.

The range includes lever handles, pull handles, hinges, escutcheons, cylinders, doorstops, indicator bolts and door closers, all of which offer a contemporary style and appealing feel.

Range Features:

- ✓ Electro-plated - great surface durability
- ✓ Salt spray tested - suitable for coastal and external applications
- ✓ Grade 304 stainless steel
- ✓ Quality finish consistency throughout
- ✓ Smooth look and feel
