Keyless Connected Smart Lock

Experience the convenience of Keyfree living with the new Keyless Connected Smart Lock.

Simple to use, have complete control on how you unlock your door.

Customize access for 20 users with options of RF cards, tags or even pin codes. And should you need to revoke access at any point, this can be easily done by un-programming registered "users" individually with your master code.

Should you already have a Smart Home system in place, you can now control your security even further by linking the Keyless Connected Smart Lock, with an optional Z-Wave module, to your system.

Smart living puts you in total control.

Make the smart choice at yalelock.co.za

The smarter way to protect your home.
